For employees who have payroll allocated to a grant funded by the Dept. of Health and Human Services or other sponsoring agencies that have restrictions on amount of salaries that can be charged on their awards and whose institutional base salary is greater than the sponsor mandated salary cap, two payroll allocation lines must be set up in Workday based on expected effort on the grants. One to directly charge the grant up to the salary cap amount and a second allocation line to capture the salaries over the cap.

Below are step by step instructions on allocating payroll when sponsor imposes salary caps.—

#### **Resources:**

- Link to DHHS Salary Cap Amounts
- Salary Cap Calculator
- UVA's Institutional Base Salary Policy- FIN-053
- Instructions for Salary Cap Audit Report in PAC System at bottom of document

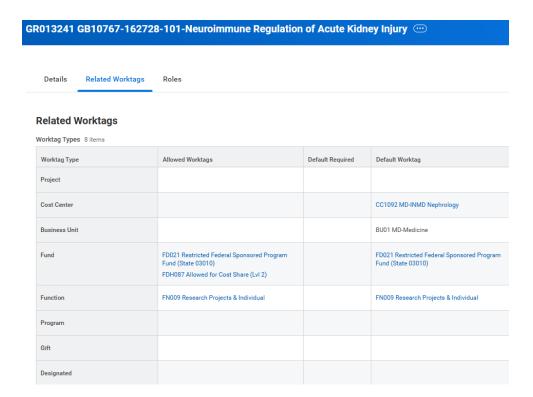

## How do I determine if my grant is subject to the DHHS salary cap?

In Workday, under Award Lines, Additional Information is a field named Award Line Salary Cap. If populated with "DHHS Salary Cap" then the grant is subject to the DHHS Salary Cap requirement.

Award Line Salary Cap
DHHS Salary Cap

# How do I link non-sponsored worktags to DHHS (or other sponsored) grant for salary over the cap purpose?

 When the grant is being created a fund hierarchy of non-sponsored funds will be added in the Allowed Worktags area so any associated Designated, Gift or Project worktags can be used for salary over the cap costing allocations.

# How do I determine if my employee's IBS is great than to the DHHS salary cap?

- Use the <u>Link to DHHS Salary Cap Amounts</u> link to determine the salary cap for the time frame in question.
- Use the <u>UVA's Institutional Base Salary Policy- FIN-053</u> to understand what is considered IBS and then enter the employee's name in the Workday search bar and hit enter. Once completed find the "compensation" area on the left-hand side of the screen.

If an employee has multiple positions that constitutes their IBS, like Clinical Faculty receiving UPG pay, this icon should be used to find all position's compensation Example:

Employee IBS: \$400,000

DHHS Salary Cap: \$203,700

Budgeted Effort: 10%

Employee: John Doe

# Open Salary Cap Calculator and enter employee's specific details:

Please note that the results in green are based on a monthly paid employee's IBS. If the employee has only one position than the details from the "Salary Cap Calculator" tab can be used "as is" in your costing allocation. However, if you have a Clinical Faculty whose IBS is comprised of an Academic Position and an UPG Position, each position must have its own 100% payroll allocated. In these scenarios, please use the "WD Payroll Alloc-Multi Position" tab to ensure the appropriate allocation %s is used for each position.

# Using the information from the calculator, assign the costing allocation for the employee in Workday

#### Academic Position:

## **UPG Position:**

#### Notes:

- When directly charging a sponsored grant for payroll expenses only Academic and Medical Center Position Salaries can be used. UPG Position Salaries cannot be used to directly charge a sponsored grant. However, UPG Position Salaries can be used for Salary Over the Cap and Cost Share purposes using the Gift worktag specifically created for using UPG salaries (GF003860).
- When entering an allocation line for salary over the cap purposes, enter the Grant ID first and then either the Designated (DN), Gift (GF) or Project (PJ). Since DN, GF and PJs are also driver worktags entering them second after the Grant ID will make entering the costing allocation more efficient.
- Grants with a Designated, Gift or Project and a non-sponsored fund will not bill the sponsor.
   These expenses will directly charge the non-sponsored worktags provided with the Grant ID associated for salary over the cap tracking purposes.

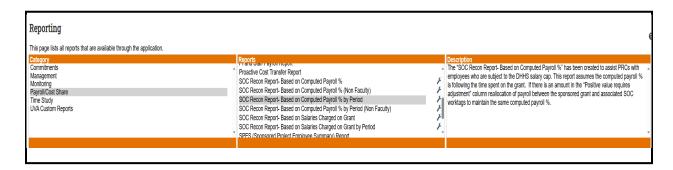

### **FAQs**

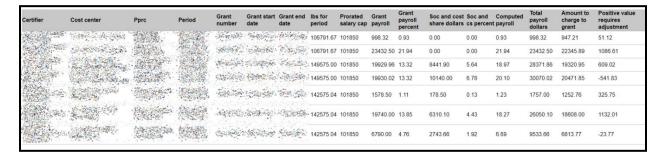

- When determining the salary cap to use from the <u>Link to DHHS Salary Cap Amounts</u> should I use
  the salary cap amount from the year the award was issued or should I use the salary cap for the
  year the payroll is being paid out?
  - o From DHHS: "For issued awards that were restricted to Executive Level II (see historical record of salary cap link below), including competing awards already issued in FY 2023, if adequate funds are available in active awards, and if the salary cap increase is consistent with the institutional base salary, recipients may rebudget funds to accommodate the current Executive Level II salary level."

Multiple salary cap audit report have been created to assist PRCs to review salaries of employees who are charged to sponsors that mandate salary caps. Note that the report only displays Certifiers whose IBS Salary is greater than the Prorated Salary Cap.

The "SOC Recon Report- Based on Computed Payroll % by Period" has been created to assist PRCs with employees who are subject to the DHHS salary cap. This report assumes the computed payroll % is following the time spent on the grant. If there is an amount in the "Positive value requires adjustment" column reallocation of payroll between the sponsored grant and associated SOC worktags to maintain the same computed payroll %.

- a. While in the PAC system, select Reporting and Payroll/Cost Share Category.
- b. Then select "Salary Cap Audit Report" and click the "Run Report" button.

The columns of the report are defined as:

- a. **Certifier** the employee whose salary is subject to the salary cap.
- b. **Cost Center** is the cost center of the certifier.
- c. **Pprc** the Primary PRC of the cost center
- d. **Period** the reporting period of the statement.
- e. **Grant Number, Grant start and Grant end dates** the Grant information subject to Salary Cap
- f. **IBS for period** the employee's institutional base salary for the PAC statement period.

- g. **Prorated salary cap** the salary cap at time of expense for the reporting period of 6 months.
- h. **Grant payroll** the amount of payroll charged to the sponsored grant.
- Grant payroll percent the percentage of payroll charged to the sponsored grant.
- j. Soc and cost share dollars provides the amount of payroll allocation for salaries over the cap.
- k. **Soc and cs percent** provides the percent of payroll allocation for salaries over the cap.
- Computed payroll the combination of columns Grant payroll percent and Soc and cs percent.
- m. **Total payroll dollars** the total payroll dollars associated with the grant, directly charged to the sponsored grant and SOC allocations. This report uses the information in the Computed Payroll column as the intended budgeted effort % the employee is contributing toward the grant.
- n. **Amount to charge to grant** Based on the understanding that the Computed Payroll column is the intended budgeted effort % the employee is contributing toward the grant, this column provides the amount to charge the sponsored grant.
- Positive value requires adjustment tells the report user if the calculation in this column is a positive number, then this amount of payroll needs to be adjusted from the sponsored grant to the SOC and CS portion of the grant.

The "SOC Recon Report- Based on Salaries Charged on Grant" has been created to assist PRCs with employees who are subject to the DHHS salary cap. This report assumes the salaries charged to the sponsored grant are allocated accurately based on the DHHS salary cap and budgeted effort. If there is a positive variance on this report this amount needs to be allocated to the SOC worktag to reflect total salaries (charged to grant + SOC) for effort spent on the grant.

- **a. Employee** the employee whose salary is subject to the salary cap.
- **b. Cost Center -** is the cost center of the certifier.
- **c. Pprc** the Primary PRC of the cost center
- **d. Period** the reporting period of the statement.
- **e. Grant Number, Grant start and Grant end dates –** the Grant information subject to Salary Cap
- **f. Total Pay** the employee's institutional base salary for the PAC statement period.
- **g. Prorated salary cap -** the salary cap at time of expense for the reporting period of 6 months.
- **h. Payroll dollars -** the amount of payroll charged to the sponsored grant.

- i. **Payroll percent** the percentage of payroll charged to the sponsored grant.
- j. **Soc and cost share dollars** provides the amount of payroll allocation for salaries over the cap.
- k. **Total payroll dollars** the total payroll dollars associated with the grant, directly charged to the sponsored grant and SOC allocations. This report uses the information in the Computed Payroll column as the intended budgeted effort %the employee is contributing toward the grant.
- l. **Calculated SOC** calculated salary over the cap amount to allocated to using non sponsored funds for reporting period
- m. **Variance-** difference between Soc and cost share dollars and Calculated SOC fields

**Workday RAD Report-** this report has been created to provide pay period level detail for salary over the cap allocations. Please note, this report is only valid for pay periods beginning 1/1/2025 and after. There are three different "Sheets" in RAD that provide different breakdowns for salary over the cap.
